

Dance Fever: Synopsis

Tina is obsessed with dancing and starts dancing all the time. She says she can't help it, it's a condition that runs in her family known as 'Dance Fever'. The problem is, it's contagious. Everyone who goes near her starts dancing, and everyone has their own style of dancing that reflects their personality. Could Sam be the only cure to the disease known as Dance Fever?

prologue: (parker, Tina)

THE CORRIDOR IS EMPTY. THE BELL RINGS AND STUDENTS FLOOD OUT OF
THE
CLASSROOMS.

parker

Hey Tina, how are you going?

Tina

I think I'm getting sick.

PARKER PULLS OUT A TONGUE DEPRESSOR AND A SMALL TORCH. TINA
OPENS HER MOUTH
AND ALLOWS PARKER TO HAVE A LOOK.

parker

Hmmm. What seems to be the problem?

Tina

I feel like (SHE STARTS CLICKING RHYTHMICALLY), like I want to start dancing.

parker

You love dancing, that's perfectly normal.

Tina

This is different, I can't stop. (SHE STARTS MOVING HER BODY) Oh no, I'm coming
down with
Dance Fever! (SHE STARTS DANCING MUCH MORE VIGOROUSLY)

parker

Dance Fever?

Tina

It's a condition that runs in my family. Well, it dances in my family anyway.

parker

What are the symptoms?

Tina

Dancing, mainly.

parker

Is it contagious?

Tina

I don't think so.

TINA STARTS DANCING HARDER THAN EVER.

parKer

Why don't you just stop?

Tina

I just can't, I just can't, I just can't control my feet!

TINA DANCES AWAY LEAVING A BEMUSED PARKER. PARKER PULLS OUT A

DICTAPHONE

AND HITS RECORD.

parker

Parker's Log, recess, Wednesday. Have identified a new form of disease, known as
Dance Fever.

Symptoms include...dancing, mainly. (PARKER LOOKS DOWN AT HIMSELF) I am not
dancing

therefore I conclude this disease is not contagious.

PARKER HITS STOP ON HIS DICTAPHONE BEFORE MOONWALKING OUT OF
FRAME.
